City of Idaho Springs and Edgar Mine Will Host Department of Defense Training

7/19/22

On July 19th, 2022, the Edgar Mine and City of Idaho Springs will be hosting members of the military as they conduct training exercises. Representatives from the Department of Defense met with Chief Nathan Buseck and Sheriff Rick Albers approximately three months ago to discuss using the Edgar Mine for training. The Edgar Mine provides a unique opportunity for personnel to practice their techniques, test their equipment and prepare for operating under ground.

The City of Idaho Springs has a long and dedicated history of supporting our United States active duty military members along with veterans who have served our country. The opportunity to host training of this magnitude is indicative of that support.

Members of the Idaho Springs community that live near the Edgar Mine may see heavier amounts of vehicular traffic in the area. Community members may also hear occasional loud noises coming from the area of the Edgar Mine and the training is expected to last into the evening hours on Tuesday, July 19th. Please do not be alarmed. The training exercise will be closed to the public and members of the media. We wish our Department of Defense members success in their training and are proud to host them!

*Commitment to...**I**ntegrity and **S**afety through constitutional **P**olicing and **D**edication to our community.*
